

TRT are Parts and Service dealers for Freightliner's range of heavy duty trucks. America's leading heavy duty truck manufacturer, offers a model line up that has been developed by engineering teams from the USA , Europe and Australia to combine a unique blend of features. Local knowledge of the harsh operating environment in Australia and New Zealand, the ability to custom build a truck in true US style and the advanced technology and world leading safety features from European design teams combine to create trucks that have been tested in the wind tunnels at parent company Daimler Trucks in Stuttgart, and the harsh deserts in the USA and Australia.

With a model range that includes Argosy, and America's most popular class 8 truck, Columbia, Freightliner offers a full range of engine options from Caterpillar, Cummins and Detroit Diesel ranging from 350 to 620 horsepower, as well as Eaton Fuller 13, 15, and 18 speed manual and Autoshift transmissions, plus many cab, fuel tank, suspension and wheelbase options to suit specific applications.

FREIGHTLINER VEHICLE I.D.

VIN Location On Left Hand Door Frame
On Specification Plate behind the driver's seat or in
the glove box inscribed on the left hand chassis
frame rail immediately over the front axle

Since 1980 Freightliner VIN's have been a 17 digit number.

For Parts Identification, the last six (6) digits are referred to as the vehicle
serial number and are a unique number sequence (valid for all VIN formats
since 1967)
