CK108	Double PTO/Hoist/Aux	No Auto PTO disengage/Hold on Lower

ELECTRIC/AIR CONTROL

Part Numbers: 49600A 12V
49600B 24V

With in-cab PTO & Hoist operation through a small hand held remote, the Powauto TCU 5000 is an advanced electronic solution. Connected to a micro processor and pneumatic control system installed on the chassis, avoids the need to plumb air lines through the cab. The use of computers allows for customisation of the control eg:
 Raise / lower stops for Truck or Trailer.
 Timed Hoist raise.
 Auto PTO Off Truck lower/Trailer lower.

CABLE

Developed for operation of equipment on trucks not equipped with air, these cable kits enable the operation of PTOs & Valves from the truck cab.

Available in 0.5 Mtr length increments from 1.5 to 5 Mtr, Powauto cables are supplied complete with all necessary hardware.
