

AGRICULTURAL SEATING

301

Universal Mechanical Suspension
 Vertical damper (optional twin + triple)
 Optional 90° swing away arm rests and bar reinforcement.

Operators working in the agricultural industry can spend long hours at the wheel of a tractor or harvester, a lot of the time looking behind. A robust, well designed suspension seat, with optional arm rests, head rests, seat belts, and swivels provides the support required.

81/E1

Mechanical suspension
 Lumbar support comfort armrests
 Back extension
 0-10°-20° swivel

856
