Pump

Powerauto Mount Gear Pumps

For high pressure and flow applications. Ideal for cranes, load lifter and compactor applications.

ISO/DIN and UNI Mounts

For moderate to high-pressure flows. Ideal for cranes, access equipment and tippers.

Piston Pumps

Suited to applications requiring high pressure with confined spaces and available in Powauto ISO mount configurations.

Hydraulic Gear Pumps

Q Series
High pressure up to 280 BAR. This is a modular design that can be assembled in a number of different configurations. This also allows for different housing frame sizes.

Remote Mounts, Pumps, Shafts and Flanges

Remote Mounts and Adapting  08 Powauto  1310 - 1410 Flange  13-SAE B  ISO/DIN

...for the long haul
