Each pack contains: 1 x Techni-Ice 85L Chilly Bin, 1 x GM Icon Cricket Set, 1 x Coleman Chair, 1 x Wild Appetite Lets BBQ set.

# UPDATE FROM GAVIN

## TRT CHRISTMAS / NEW YEAR HOURS

Christmas and Summer holidays are upon us and it feels like only yesterday we were talking about the long-wet days of winter.

There is a lot of activity continuing across the business, the TRT Parts Team has drawn the winners of our "Shout the Team" competition, congratulations to those that won. TRT has also attended a number of key industry events including CICA (Crane Industry Council of Australia) and IVECO and Scania conferences. We have also hosted our annual celebration dinner for our TRT 10-year service award members (circa 41 of our team).

Our innovative products continue to drive industry performance with the completion of Universal's new crane trailer, the first of its kind with our innovative new VERSALOCK system, as well as the delivery of Hadlee and Bruntons new platform trailer, and Traction Air's successful expansion into Sweden.

The industry continues to present challenges with freight movements down for this time of year, although the Agricultural sector may provide some upside with spring cropping in full swing for bulk spreaders and general contractors, off the back of a favourable milk price.

The team at TRT wish you and your teams a Merry Christmas and happy New Year. We hope you manage to take some time with friends and family. We look forward to partnering again in 2020.

National Sales Manager,  
Gavin Halley

# IN THE NEWS

## TRT Celebrates 10 Years+ Service as One Team

From 160 people at its 33,000sqm site at Te Rapa in 2017, TRT now has 265 employees with sites in Hamilton, Auckland, Christchurch and Brisbane. This growth has been built on a reputation for unparalleled innovation, expertise, reliability and support from customers for the long haul.

However, through this success TRT has not lost sight of its most important asset – people.

Dave Carden, TRT's founder and director explains, "People are everything. It's so easy to go and buy million-dollar tools to do something – which we've done repeatedly – but it's bloody hard to get people to drive it. You've got to treat the people in such a way that they want to come and drive it."

The "10 Year" awards dinner were held at the Wintec Atrium in Hamilton on Thursday, 25 October 2019 with around 90 staff and partners, shareholders, directors and the TRT Board in attendance. Ricki Herbert, founder and managing director of The Ricki Herbert Football Academy and TRT team mentor, was the guest speaker.

TRT is honoured to have 41 people who have been with the company longer than 10 years, and some more than 40 years. This loyalty comes from the shop

floor and up through the ranks. It is testament to the visionary leadership of the Carden family for more than 52 years.

From Left: Dave (35 years service) & Annie Wright, Jacqui & Benet (15 years service) Gage-Brown.

TRT Founder and Director, Dave Carden, speaks to the guests.

Glen Morrell is presented his 20 Year Service Award by Robert Carden.

From Left: Emeteres & Randie Dimaano (11 years service), Ray (12 years service) & Sarah Chystall

Chief Operations Officer Lawrence Baker, who joined TRT two years ago is driving a new 'One Team' approach within the business and it was celebrated as the theme at TRT's 10 Year Awards Dinner.

Lawrence explains, "The One Team approach is a tangible recognition that our success is grounded in our people. Therefore, the team's ability to grow and adapt as we continue on our journey is very important to us. It's about ensuring everyone feels valued and recognised as a key member of the team, from encouraging collaboration, providing development opportunities, through to celebrating success, recognition and

developing strong leadership across all parts of our business."

TRT celebrates this commitment annually with the team, with a number of inductee's into the 10 Year "club" each year, where 5 year increments are also celebrated. This year the recipients were:

- **Zane Bodiam** – Customer Service Team Leader Hamilton, 10 years
- **Benet Gage-Brown** – Engineering Design Manager, 15 years
- **Glen Morrell** – Assembly Specialist, 20 years
- **Eugene Phillips** – Procurement Manager - 20 years
- **Dave Wright** – Project Manager – 35 years

## TRT Team Profile

### What do you enjoy most about the industry?

The people in the industry – I've gained friendships over the years, and others have been in the industry a long time too. I find people that are knowledgeable as a rule and share the same interests and I definitely like helping them out.

### What industry trends are you seeing?

There is a shortage of good quality skilled people in the industry from mechanics, drivers and other transport specialists. This seems to be putting unnecessary pressure on customers' operations.

### What might surprise someone about TRT?

The size of our operation and how long we have been around, especially in the South Island.

**Name:** Chris Wild  
**Role:** South Island Parts Sales Rep – Heavy Transport  
**Branch:** Christchurch  
**Years with TRT:** 1 Year  
**Years in the Industry:** 20 Years

### What do you enjoy the most in your role at TRT?

The people we deal with from the team at TRT, to my customers across the South Island, I don't mind the travel either. I like to help people out and solve their problems, so this role is ideal.

### Your Favourite Quote / Tip or Advice?

If you are unsure about exactly what part you

need identifying, you just need to ask us, we've got a heap of experts, so its easy to get it right the first time.

### What do you like to do outside of work?

I spend time with my kids, socialising and following motorsport. I often get out in the great Mainland outdoors and go camping.

## We talk Service Exchange with Duke *(Parts Guru, 41 years at TRT)*

We asked Duke...  
**“Why would you buy remanned parts instead of rebuilding your own?”**

Summer is a key time for fleet maintenance, to assist, TRT has an extensive service exchange and repair programme for drive train parts, hydraulic hoists and steer axles.

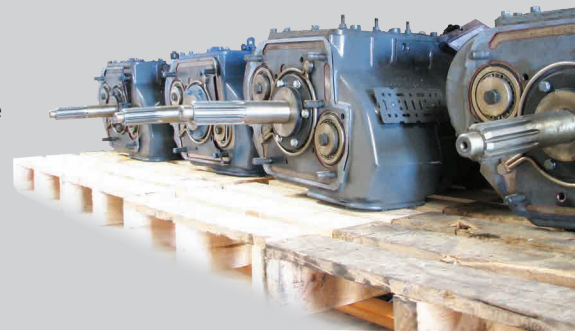

Duke Cubis leads this team – his knowledge and expertise goes unchallenged in the NZ trucking industry, and our parts and service customers have come to rely on it.

### TRANSMISSIONS

“It’s all about saving time and getting you back on the road faster, you could repair in-house - sure, but if you send us the old transmission, we can send a remanned one, usually that day – this saves time and cost. We have a lot of stock available – but we can also exchange for new.”

“Our remanned transmissions come with a 12 month warranty. All parts we use are genuine and we crack test for faults so not even a hairline crack gets missed. Not many workshops can do that.”

Exchange includes Eaton Synchronesh, Roadranger and ZF Transmissions.

“Not many parts suppliers can say we do it all - but we do it all. We’re the one supplier that can sort all of this for you – supporting your operation and your own workshops, we’re happy to provide customers advice and we offer 12 month warranty on repairs to factory spec. That’s peace of mind!”

### Nationwide Sales, Service & Parts

- Greymouth
- Christchurch
- Timaru
- Queenstown
- Dunedin
- Invercargill

## STEER AXLES

“Simple, like transmissions we have a stock of steer axles to factory spec. We reduce your downtime, send us your steer axle, we will send you a remanned one with a 12 month warranty or if time permits we can repair your steer axle – it doesn’t get easier than that to get a trailer back on the road”

Exchange Steer Axles include SAF, BPW, ROR and Meritor.

## DRIVE SHAFTS

“We build new drive shaft assemblies that are manufactured to factory specifications. We have all of the expertise in house, with a balancing workshop and certified welders, we replace parts with genuine only.

We are factory authorised and will repair for all makes and models, even construction equipment and plant. If you bring us your truck to fit your drive

shaft we have dynamic balancing to get you on the road quicker”

Exchange for all Japanese American and European Drive Shafts.

Conditions apply to the service exchange programme – please contact Duke or one of the team to review the options.

**FREE!**

All remanned transmissions, drive head, drive shafts or steer axles purchased from 1 Dec 19 to 31 Jan 20 receive a **FREE Cooler Bag!**

# NEW YEAR, NEW SEAT?

Choosing the right seat will make your day or night easier! Help reduce fatigue, improve safety and your health. TRT’s truck seat experts can help.

View our truck seat range at [www.trt.co.nz](http://www.trt.co.nz) or call us today!

**Bostrom®**

**INSTALLATION**  
- E Series

This new E Series Traction Air CTI installation was completed by the team at TRT for our customer, Wealleans.

This Wealleans unit is used for bulk spreading. Traction Air keeps their spreaders working year round, limiting ground damage in any weather or with any ground conditions.
